

Compass Immunology Clinic is a specialist private medical practice providing health care services including: for patients with allergies, autoimmune disorders, and immunodeficiencies: paediatrics, speech pathology, dietetics and psychology.

Services we provide:

- Diagnosis and management of food allergy, inhalant allergy, insect allergy and drug allergy.
- Management of severe allergies and anaphylaxis.
- Diagnosis and management of autoimmune and immunodeficiency disorders.
- Diagnosis and management of allergic rhinitis and allergic asthma.
- Management of acute and chronic urticaria and angioedema.
- Skin prick allergy testing, intradermal testing and allergy patch testing.
- Food and drug allergy provocation testing.
- Adrenaline auto-injector prescription and patient education.
- Desensitisation (Immunotherapy) for inhalant allergies and insect venom allergies.
- Management of eczema (atopic dermatitis).
- General paediatrics
- Speech pathology for children
- Psychology
- Dietetics

We provide expert care for children and adults with allergic and immunological disorders, child health, and paediatrics. We are proud to provide a truly comprehensive specialist immunology and allergy clinic in Queensland delivering services to metropolitan patients, rural and remote patients, and hospital inpatients.
